

Array Type Capacitors

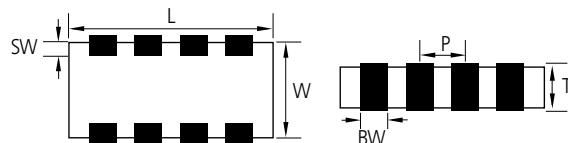

Feature

- Reduction in required space(more than 50%)
- Reduction in cost and time for replacement of PCB
- Reduction in amount of solder joints
- Easier PCB design
- Reduced waste from tape and reel packaging process
- It protect EMI bypassing digital signal line noise

Application

- A bypass for digital and analog signal line noise generated by telecommunication equipment and other common electronic circuits
- For using special purpose like Military, Medical, Aviation, Automobile device should be following a special specification.
